| 1) The total rates presented reflect the UDC rates associated with service under Schedule TOU-DR-MB and the generation rates associated with Schedule EECC-TOU-DR-P. The UDC rate-by-rate components presented are associated with service under Schedule TOU-DR-MB as presented in the utility's tariff book.                                                                                                                                                         |         |         |         |         |           |         |         |           |           |                               |                        |                                         |                              |
| 2) Unbundled customers are those who take generation from other providers, such as Direct Access (DA) or Community Choice Aggregation (CCA). Unbundled customers do not pay SDG&E's commodity rates. The Total Energy Charge for an unbundled customer includes UDC, WF-NBC, DWR-BC and Power Charge Indifference Adjustment (PCIA) rates. PCIA rates by vintage are included below. Please see Schedules DA-CRS or CCA-CRS for more information regarding PCIA rates. |         |         |         |         |           |         |         |           |           |                               |                        |                                         |                              |
