What is the EPIC?

The Electric Program Investment Charge (EPIC) is a California statewide program that enables Utilities and CEC to invest in & pursue new/novel emerging energy solutions to meet California's energy goals & drive innovation in the industry

EPIC promotes building the energy network of tomorrow through innovation focused on

Increased Safety • Improved Affordability • Greater Reliability

Pending CPUC Decision is also expected to include improve environmental sustainability & equity.

Renewables and Distributed Energy Resources (DER) Integration

Grid Modernization and Optimization

Customer Focused Products and Services Enablement

Cross-Cutting
Foundational Strategies &
Technologies

What is the EPIC?

Program Areas & Administrators in EPIC 3

Applied Research and Development	Technology Demonstration & Deployment	Market Facilitation
Investment in applied energy science and technology that provides public benefit but for which there is no current deployment of private capital.	Investments in technology demonstrations at real-world scales and in real-world conditions to showcase emerging innovations and increase technology commercialization.	Investments in market research, regulatory permitting and streamlining, and workforce development activities to address non-price barriers to clean technology adoption.
