

California is fighting climate change and so can you! Your October electric bill includes a Climate Credit from the State's Cap-and-Trade Program. Learn more at cpuc.ca.gov/ClimateCredit.

OCTOBER 2024

Get up to \$4,000 towards a used electric vehicle

Driving electric just got more affordable with SDG&E's new Pre-Owned Electric Vehicle (EV) Rebate Program that rewards qualifying customers with rebates of up to \$4,000 when you buy or lease a used EV. Vehicles purchased after January 1, 2024, qualify for the program. Don't miss out on your chance to save on driving costs while contributing to a cleaner, healthier environment. To learn more or apply, visit EVRebates.sdge.com.

Recibe hasta \$4,000 para un VE Usado

Conducir un vehículo eléctrico (VE) ahora es más fácil con el nuevo Programa de reembolso de vehículos usados de SDG&E que recompensa a los clientes que califiquen con un crédito de hasta \$4000 cuando compren o alquilen un VE. Los vehículos comprados después del 1 de enero del 2024 califican para este programa. No pierdas la oportunidad de ahorrar en costos de combustible y al mismo tiempo contribuir a un medio ambiente más limpio y sano. Para más información, visita EVRebates.sdge.com.

Prepare for winter early! Schedule a no-cost gas appliance safety check with SDG&E.

Cold weather is right around the corner, which means the use of natural gas appliances like water heaters and furnaces may increase. Schedule a gas appliance check with SDG&E® to make sure your appliances are working properly and efficiently to help keep gas bills lower. Getting your appliances inspected is a great way to help prevent carbon monoxide poisoning too.

One of our SDG&E gas technicians will come to your home or business to inspect your gas appliances. We offer a variety of complimentary services:

- Light and inspect gas pilot lights. Make sure pilot lights and burner flames are a clear blue.
- Check that gas appliances are operating safely and efficiently and not emitting carbon monoxide.
- Ensure gas furnaces are working properly and inspect the condition of the filter which improves the furnace's heating ability.

Learn more at sdge.com/GasCheck or schedule your service online at MyEnergyCenter.com or on the app.

Energy savings for the Golden State

Golden State Rebates offers eligible customers instant rebates toward the purchase of energy-efficient products for the home. This program is designed to help you save on great products that improve your home's comfort, health and energy efficiency.

The instant rebates cover efficient water heaters, smart thermostats and room air conditioners. Review the list of qualified products and find out if you are eligible at GoldenStateRebates.com.

You can redeem online rebate coupons on your selected retailer's website (using the coupon as a promo code). Other in-store rebate coupons are redeemable at local Home Depot, Best Buy or Lowe's locations. Please note that not all products are available at every retailer.

Fall energy-saving tips

As autumn leaves begin to fall, it's the perfect time to save energy and money. Lower your thermostat a few degrees and embrace cozy sweaters and blankets. Seal any drafts, clean and maintain your heating system and consider insulating your home. Take advantage of natural sunlight during the daytime and close curtains at night to retain heat. Simple adjustments can make an impact on your energy savings this season. For more tips, visit sdge.com/MyEnergy.

Increase your home's defenses

Flying embers from a wildfire can threaten homes up to a mile away. Stay safe this wildfire season with a defensible space. It's the area around your home where vegetation is maintained and cleared to reduce the spread of wildfire to and from your property. Remove all brush and dead branches within a 100-foot perimeter of your property. Low-growing ground cover (like drought-tolerant succulents) and gardens are okay but anything that could ignite should be removed. Learn more about defensible space at sdge.com/WildfirePrep.

Moving?

Transfer your service online.

Visit MyEnergyCenter.com or download the app to schedule services online.

It's convenient and only takes a few minutes - no calls, no waiting.

- Online scheduling shows earliest available dates
- If plans change, update your request online

Plus, there are more online services to make your move easy.

- Download Letters of Residency or Credit History
- Get help with other services like phone, internet and TV

Proposition 65 warning

SDG&E is a regulated public utility that provides energy service to 3.7 million people through 1.49 million electric meters and 905,000 natural gas meters in San Diego and southern Orange counties. Our service area spans 4,100 square miles. For a map of our service area, go to sdge.com/about-us.

Natural gas and treated wood utility poles are used throughout our service area. In accordance with Proposition 65, the following warnings are provided:

Natural gas combustion

WARNING: Entering this area can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer, and carbon monoxide, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov.

Treated wood utility poles

WARNING: Entering this area can expose you to chemicals including pentachlorophenol, which is known to the State of California to cause cancer. For more information go to www.P65warnings.ca.gov.

GoGreen for your clean energy upgrades

Exciting news, SDG&E customers! Adding solar + battery storage, an electric vehicle (EV) charger or a solar hot water heater to your home just got a lot easier and more affordable. GoGreen Home Energy Financing, a program administered by the state of California, brings energy upgrades within reach through finance offerings with below-market interest rates, affordable monthly payments and no hidden fees or lien on your property.

GoGreen Home is expanding to finance clean energy projects like EV chargers and bundled solar + battery storage so you can generate and store your own energy. To explore projects, find a contractor and pick the financing option that works best for you. Visit our one-stop shop at GoGreenFinancing.com/residential.
