

## Prep now for summer energy savings

Summer is almost here, and as temperatures rise, your energy use may too. It's the perfect time to prepare your home for summer heat; check your A/C filter, seal air leaks and start energy saving habits before temperatures peak.

### Get ahead of the summer heat

- **Replace your A/C filter**  
Check filters every 1-2 months. Starting June with a clean filter helps your system run efficiently before heavy summer use, reducing energy waste and strain on your A/C.
- **Clean dryer lint traps and vents**  
Keep your clothes dryer vents and lint filters clean. Dirty filters cause your system to work harder, which wastes energy.
- **Inspect windows and doors for air leaks**  
June is ideal for weatherstripping and caulking before heat is constant. Sealing drafts helps keep cool air inside and can reduce cooling costs by up to 5%\*.

### Use June to build smart energy habits

- **Pre-cool your home before peak hours**  
In the early afternoon hours, pre-cool your home, then minimize A/C use during **4 p.m. - 9 p.m.** when energy demand and pricing is highest.
- **Shift chores outside peak hours**  
Run laundry, dishwashers and pool pumps earlier in the day or later at night.
- **Take advantage of new weekday Super Off-Peak hours**  
Super off-peak pricing is now available weekdays from **10 a.m. - 2 p.m.** year-round. That means more weekday hours to use electricity at lower prices, helping you save.

## Request this alert if heat is harmful to your health

If extreme heat would be harmful to the health of anyone living in your home and a moderate indoor temperature is a must, be sure to enroll in SDG&E's **Temperature Sensitive Program**. With this free service, you'll receive advance notice, if possible, of power outages. An automated phone call will alert you to prepare for a temporary loss of air conditioning.

To sign up for the Temperature Sensitive Program, download the program application at [sdge.com/TempSensitive](https://sdge.com/TempSensitive).

If you participate in SDG&E's **Medical Baseline Program**, then you're already on the call list for outage notices and do not need to enroll in the Temperature Sensitive Program.

**SEASONAL TIP:** Set ceiling fans to spin **counterclockwise** in summer to push air downward. This creates a breeze that can make you feel 3-4°F cooler without lowering the thermostat.

## Safe celebrations start with smart balloon choices

Metallic balloons bring smiles to picnics, graduation parties, birthday celebrations and family gatherings. But when metallic balloons are left untethered outside, they may float into power lines – which may cause an electrical surge that blows the circuit. The metallic coating on the balloons conducts electricity, so when it meets a power line, it can cause an outage in your neighborhood and even spark an electrical fire. You can help prevent outages and fire ignitions by following these safety tips:

- Keep metallic balloons indoors to prevent them from floating near electric lines.
- If your celebrations take you outdoors, keep metallic balloons securely fastened or attached to a weight.
- Never release metallic balloons outdoors! And after the celebrations are over, dispose of balloons by safely puncturing them until they're fully deflated.

For more safety information, visit [sdge.com/safety](https://sdge.com/safety).

## Moving? Transfer your service online

Start, transfer or stop services online at [MyEnergyCenter.com](https://MyEnergyCenter.com) or the mobile app.

It's convenient and only takes a few minutes – no calls, no waiting.

- Online scheduling shows earliest available dates
- If plans change, update your request online

Plus, there are more online services to make your move easy.

- Download Letters of Residency or Credit History
- Get help with other services like phone, internet and TV

Visit our moving center at [sdge.com/move](https://sdge.com/move).

Learn more about the My Energy Center app at [sdge.com/MobileApp](https://sdge.com/MobileApp) or download the app on the App Store® or Google Play™.

## Need help with your energy bill?

You may qualify for a bill discount. Assistance programs help lower your monthly energy bill while keeping your home comfortable.

### California Alternate Rates for Energy (CARE)

**Program:** Save 30% or more every month on your bill. Find out if you qualify at [sdge.com/CARE](https://www.sdge.com/CARE).

### Family Electric Rate Assistance (FERA)

**Program:** If you don't qualify for CARE, you may qualify for FERA. You could receive an 18% discount on your electricity bill. Visit [sdge.com/FERA](https://www.sdge.com/FERA) to learn more.

**The Low-Income Home Energy Assistance Program (LIHEAP)** offers eligible customers up to \$1,000 in financial assistance towards your energy bill. Learn more at [sdge.com/LIHEAP](https://www.sdge.com/LIHEAP).

Online applications are easy, fast and convenient. To learn more, visit [sdge.com/Assistance](https://www.sdge.com/Assistance).

## ¿Necesita ayuda con su factura de energía?

Usted puede calificar para un descuento en su factura. Los programas de asistencia de SDG&E ayudan a reducir su factura mensual de energía mientras mantiene su hogar cómodo.

**Programa de Tarifas Alternativas de Energía de California (CARE, por sus siglas en inglés):** Ahorre un 30% o más cada mes en su factura. Averigüe si califica en [sdge.com/CARE](https://www.sdge.com/CARE).

**Programa de Asistencia de Tarifa Eléctrica Familiar (FERA, por sus siglas en inglés):** Si no califica para CARE, puede calificar para FERA. Podría recibir un 18% descuento en su factura de electricidad. Visite [sdge.com/FERA](https://www.sdge.com/FERA) para obtener más información.

**El Programa de Asistencia de Energía para Hogares de Bajos Ingresos (LIHEAP)** ofrece clientes elegibles hasta \$1,000 en asistencia financiera para su factura de energía. Obtenga más información en [sdge.com/LIHEAP](https://www.sdge.com/LIHEAP).

Las aplicaciones en línea son fáciles, rápidas y convenientes. Para obtener más información, visite [sdge.com/Assistance](https://www.sdge.com/Assistance).

## Download the My Energy Center app

Easily track your energy by downloading the mobile app. Self-service features and navigation deliver a seamless experience to help you stay in control of your energy use and costs. For more info, visit [sdge.com/MobileApp](https://www.sdge.com/MobileApp).

## Proposition 65 warning

SDG&E is a regulated public utility that provides energy service to 3.7 million people through 1.49 million electric meters and 905,000 natural gas meters in San Diego and southern Orange counties. Our service area spans 4,100 square miles. For a map of our service area, go to [sdge.com/about-us](https://www.sdge.com/about-us).

Natural gas and treated wood utility poles are used throughout our service area. In accordance with Proposition 65, the following warnings are provided:

### Natural gas combustion

**WARNING:** Entering this area can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer, and carbon monoxide, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65warnings.ca.gov](https://www.P65warnings.ca.gov).

### Treated wood utility poles

**WARNING:** Entering this area can expose you to chemicals including pentachlorophenol, which is known to the State of California to cause cancer. For more information go to [www.P65warnings.ca.gov](https://www.P65warnings.ca.gov).

## Advertencia de la Proposición 65

SDG&E es una empresa de servicios públicos regulada que ofrece servicio de energía a 3.7 millones de personas a través de 1.49 millones de medidores eléctricos y 905,000 medidores de gas natural en los condados de San Diego y sur de Orange. Nuestra área de servicio abarca 4,100 millas cuadradas. Para ver un mapa de nuestra área de servicio visite a [sdge.com/about-us](https://www.sdge.com/about-us).

En toda nuestra área de servicio se utilizan gas natural y postes de madera tratados para servicios públicos. De conformidad con la Proposición 65, se proporcionan las siguientes advertencias:

### Combustión del gas natural

**ADVERTENCIA:** Entrar a esta área puede exponerle a sustancias químicas, entre las que se incluyen formaldehído, conocido por el estado de California como causante de cáncer, y monóxido de carbono, conocido por el estado de California como causante de defectos congénitos u otros daños reproductivos. Para obtener más información, visite a [www.P65warnings.ca.gov](https://www.P65warnings.ca.gov).

### Postes de madera tratados para servicios públicos

**ADVERTENCIA:** Entrar a esta área puede exponerle a sustancias químicas, entre las que se incluye pentaclorofenol, conocido por el estado de California como causante de cáncer. Para obtener más información, visite a [www.P65warnings.ca.gov](https://www.P65warnings.ca.gov).
