

Wildfire season is here.

Get prepared and stay informed.

Wildfire Safety

Our commitment is to your safety.

Increasingly, California and the western region of the U.S. are experiencing more frequent and severe wildfires. The safety of our customers, employees and the communities we serve is a top priority, which is why we continue to strengthen our infrastructure and invest in solutions that help protect the people who call this region home.

MORE THAN

130

cameras monitor
weather and fires.

MORE THAN

220

weather stations
provide readings of
wind speed, humidity
and temperature.

MORE THAN

300

miles of power
lines strategically
undergrounded.

MORE THAN

490,000

trees have been inspected and
trimmed near SDG&E® power lines.

MORE THAN

40

drones conduct year-round aerial
inspections of power and gas lines.

If dangerous conditions are present, we may shut off power to keep you and your community safe. This is called a **Public Safety Power Shutoff (PSPS)**.

What is a Public Safety Power Shutoff?

A PSPS is a safety measure where power is temporarily turned off in specific areas during extreme weather conditions that can increase the risk of wildfires. SDG&E is continually monitoring these high-fire-risk conditions to protect the communities it serves, including:

HIGH WINDS
(Including Red
Flag warnings)

**LOW
HUMIDITY**

**DRY
VEGETATION**
that could serve
as fuel

**FIRE
THREAT**
to electric
infrastructure

**ON-THE-
GROUND
OBSERVATIONS**

**PUBLIC
SAFETY
RISK**

A photograph of two women in an office setting. The woman on the left, with blonde hair and wearing a maroon shirt, is pointing at a large map or screen on the wall with a white marker. The woman on the right, with brown hair and wearing a blue shirt, is looking at the map. The background shows a modern office with desks, computers, and other people working.

How is a Public Safety Power Shutoff determined?

Public Safety Power Shutoff Process

7-10 days ahead	3-6 days ahead	2 days ahead	1 day ahead	Day of Power Shutoff	CRC open	Safety inspections	Power restored
							
When forecasts indicate the potential for fire conditions, SDG&E monitors weather to assess potential impact.	SDG&E Meteorology Team refines fire weather forecasts accordingly.	Communication starts with customers potentially affected by a possible PSPS, including state, county, city, critical customers and Medical Baseline customers.	Continued monitoring, communications and coordination with Public Safety Partners and communities impacted by weather conditions.	Continue notifying all affected customers, including state, county, city, critical customers and Medical Baseline customers.	Inform customers and the public when Community Resource Centers (CRCs) are open.	Power line safety inspections begin. Crews inspect power lines and equipment to confirm they are safe prior to restoring power.	Once the high-fire-risk conditions have passed, SDG&E field crews and aerial resources will patrol overhead power lines to make sure the system is clear of damage and power is ready to be restored.

Timeline of Notifications (when possible)

During a PSPS, we plan to support you by opening a Community Resource Center in or near affected areas.

Community Resource Centers can help during a PSPS.

A Public Safety Power Shutoff can last until fire risk conditions are no longer a threat.

During a PSPS, we plan to open any of our Community Resource Centers in or near affected areas. These facilities serve as locations where impacted residents can go to get preparedness materials, ice, water, snacks, car power inverters, small solar-powered batteries and radios, and get up-to-date information on outages.

For a complete list of Community Resource Centers, including facility names and addresses, visit sdge.com/Resource-Centers.

Stay safe. Take action.

Think smart. Don't leave your safety to chance. Take steps now to prepare for any emergency.

Develop an emergency plan

Identify a place to meet with family, safe routes and shelters, as well as what actions you will take. Discuss and practice the plan with your family, including your children.

Electric generator safety

A backup electric generator can be a valuable thing to have when the power goes out. Find out whether you need one for your home, how to shop for the right generator and use it properly and safely. Learn more at sdge.com/Generator.

Download our app, "Alerts by SDGE"

Stay informed about Public Safety Power Shutoffs (PSPS) before, during and after these events are called. Visit sdge.com/PSPSapp to download the app or learn more.

Whatever the circumstances, we'll make every effort to communicate with you.

Update contact information

Visit MyEnergyCenter.com, click on "Account" and update your contact information, including your email address.

Sign up for outage notifications

Stay in the know, so we can help keep you safe. This process is for PSPS as well, not just wildfires. Start by making sure contact information is up to date.

Visit sdge.com/Notifications.

Providing extra support during Public Safety Power Shutoffs

SDG&E is committed to providing all customers with accessible resources and services during a PSPS. So that we can better understand those with accessibility needs, please complete our survey at sdge.com/AFN-Survey.

Be prepared. Create a defensible space.

Minimize your home's exposure to risk by modifying the vegetation space around it to resist a wildfire.

Have an emergency kit ready

In an emergency, you may only have a moment's notice to evacuate. Here are some suggested items to consider.

Your packing list

- ☐ Three-day supply of bottled water (one gallon per person per day)
- ☐ First aid kit, essential medicines and eyeglasses
- ☐ Three-day supply of packaged, dried and canned food
- ☐ Manual can opener
- ☐ Pet food and pet carrier
- ☐ Portable radio and flashlights with spare batteries in waterproof bags
- ☐ An extra set of car keys, cash and credit cards
- ☐ Special items for infants
- ☐ Cell phone with chargers and backup battery
- ☐ Whistle to signal for help
- ☐ Overnight bag of clothes and toiletries
- ☐ Face mask
- ☐ Hand sanitizer
- ☐ Fire extinguisher
- ☐ Important documents

Items for seniors and people with disabilities

- ☐ Medical equipment (including batteries and chargers)
- ☐ Prescriptions
- ☐ List of medical, pharmacy and medical device supply providers, including phone numbers
- ☐ Copies of prescriptions, doctors' orders and serial numbers of medical devices
- ☐ Extra eyeglasses and hearing aids (include extra batteries)
- ☐ Medical alert tags or bracelets or written description of your disability and/or needs if you're unable to describe the situation in an emergency
- ☐ Assistive technology and/or communication tools
- ☐ Accessible housing
- ☐ Service animal

Plan for safety with tips, videos and checklists at [**sdge.com/Emergency**](https://sdge.com/Emergency).

Disaster information

In an emergency, the most important thing you can do is be prepared.

SDG&E®

Call **1-800-411-7343** or visit **sdge.com/Safety** for more information.

Community Resource Centers

During extended Public Safety Power Shutoffs, we'll open resource centers. Find a resource center at **sdge.com/Resource-Centers**.

Ready San Diego

County Office of Emergency Services. Sign up for notifications in case there is an emergency: **ReadySanDiego.org**

211 Hotline

SDG&E and 211 have collaborated to provide appropriate information and services to increase preparedness during a PSPS and emergencies. Services may include assisted transportation, backup power, preparedness items, food security, temporary shelter and wellness checks. A live operator can help you find what you need in your location, simply dial 2-1-1 or (858) 300-1211.

Helping to build community safety

We continue to strengthen our network of partners that strive for year-round resiliency and provide emergency preparedness and rapid response during crises. SDG&E also supports and fosters strategic communication with local first responders and safety partners to develop public safety programs that encourage emergency preparedness, response and recovery planning.
