Pricing Plan Enrollment

By selecting to enroll in a new pricing plan, the User (you) certifies that you are the primary account holder who understands and agrees that SDG&E® will switch the selected meter to the indicated new pricing plan. Your new pricing plan may have different costs based on the time of day and year. For specific details, please review the tariff. Additionally, your new plan may include Reduce Your UseSM days with Reduce Your Use alerts and 1 Year No Risk Pricing. Details on each pricing plan component may be found on sdge.com/whenmatters.

1 Year No Risk Pricing is available on the TOU-DR1 and TOU-DR2 plans for up to one year, starting on your rate effective date. 1 Year No Risk Pricing means that SDG&E will compare the amounts you paid on the new pricing plan with the amounts you would have paid on your previously effective rate. If the amount you would have paid on your previously effective pricing plan is lower than the amount you paid on the new pricing plan, you will receive a bill credit for the difference. 1 Year No Risk Pricing is applicable for up to 12 months and requires continuous service at your current location while on TOU-DR1 or TOU-DR2.

In signing up for a new pricing plan, you acknowledge your understanding that the price comparisons provided to you with this website's online pricing tools and/or a Personalized Plan Comparison are projections based on historical usage and that actual benefits may change due to unknown circumstances, such as changes in future usage, equipment, or local weather conditions. If you want to cancel enrollment from either TOU-DR1 or TOU-DR2 plans, you may notify us through our Customer Contact Center at any time. You may also change to any other eligible plan by logging into My Account. Your rate effective date is based on your next scheduled meter read date and verification that you are eligible for the rate change.

If your pricing plan becomes unavailable in the future for any reason, you will be notified of your options in advance of any changes.
