PAO DATA REQUEST

Question 1

The following question refers to the spreadsheet SDG&E provided in response to Public Advocates Office DR 02 Q02.

- a. Please state what year the costs in the “Cost” and “Construction Site Direct Costs” columns are escalated to.
- b. If the costs in the “Cost” and “Construction Site Direct Costs” columns are escalated to a year besides 2019, please re-provide the spreadsheet with the “Cost” and “Construction Site Direct Costs” escalated to 2019 \$.

SDG&E Response

- a. The columns “Cost” and “Construction Site Direct Costs” for the Power Your Drive (PYD) Pilot program are expressed in dollars in the years the costs were incurred as of July 2019. No escalation has been applied to the actual costs.
- b. SDG&E submits it is inappropriate to escalate actual costs incurred prior to 2019. PAO can perform its own escalation calculations if it deems necessary to do so.
