ORDER INSTITUTING RULEMAKING TO DEVELOP AND ADOPT FIRE-THREAT MAPS AND FIRE-SAFETY REGULATIONS

Summary

This order institutes a rulemaking proceeding to develop and adopt maps that depict areas of the State where there is an elevated risk of power-line fires igniting and spreading rapidly. The California Department of Forestry and Fire Protection will have a primary role in the development of these fire-threat maps. The adopted fire-threat maps will be used to: (1) accurately designate the high fire-threat areas where many of the fire-safety regulations adopted in Rulemaking (R.) 08-11-005 apply, and (2) assess the need for additional fire-safety regulations. New fire-safety regulations will be adopted, as appropriate.

R.08-11-005 is closed for the purpose of Public Utilities Code Section 1701.5, but remains open to process pending requests for intervenor compensation in R.08-11-005.

1. Background

In October 2007, strong Santa Ana winds swept across Southern California and caused dozens of wildfires. The resulting conflagration burned more than 780 square miles, killed 17 people, and destroyed thousands of homes and buildings. Hundreds of thousands of people were evacuated at the height of the fire siege. Transportation was disrupted over a large area for several days, including many road closures. Portions of the electric power network, public communication systems, and community water sources were destroyed.

Several of the worst wildfires were reportedly ignited by power lines. These included the Grass Valley Fire (1,247 acres), the Malibu Canyon Fire (4,521 acres), the Rice Fire (9,472 acres), the Sedgewick Fire (710 acres), and the Witch Fire (197,990 acres). The total area burned by these five power-line fires exceeded 334 square miles.

In response to the widespread devastation, the Commission issued Order Instituting Rulemaking (R.) 08-11-005 to consider and adopt regulations to reduce the fire hazards associated with overhead power lines and aerial communication facilities in close proximity to power lines. The Commission has issued several decisions in R.08-11-005 that together have adopted dozens of new fire-safety regulations.

Although much has been accomplished in R.08-11-005 to protect the lives and property of Californians, important work remains. In particular, many of the fire-safety regulations adopted in R.08-11-005 apply to areas where there is an elevated risk of power-line fires igniting and spreading rapidly (referred to herein as “high fire-threat areas”). These regulations include:

- A new General Order (GO) 95 rule that requires utilities to design, construct, and maintain their facilities for known local conditions.¹ If known local conditions, such as Santa Ana wind storms, require a higher standard than the particulars specified in GO 95 to enable the furnishing of safe, proper, and adequate service, then the utility must follow the higher standard.
- A new GO 95 rule that sets minimum frequencies for patrol inspections, detailed inspections, and intrusive inspections of aerial communication utility facilities in high fire-threat areas that are (i) attached to the same pole as electric utility facilities, or (ii) in close proximity to overhead electric utility facilities.
- A new GO 95 rule that expands vegetation clearances around power lines in high fire-threat areas of Southern California.

¹ GO 95 contains rules for the design, construction, operation, and maintenance of overhead utility facilities such as power lines, communications lines, utility poles, and pole-mounted antennas.

- A new GO 165 rule that increases the frequency of patrol inspections of overhead electric utility facilities in rural high fire-threat areas of Southern California.²
- A new GO 166 rule that requires investor-owned electric utilities (Electric IOUs)³ in Southern California to prepare and submit plans to prevent power-line fires during extreme fire-weather.⁴ Electric IOUs in Northern California must make a good faith effort to determine if there is a credible threat of extreme fire-weather events in their service territories and, if so, to prepare and submit plans to prevent power-line fires from occurring during such events.

In order for these fire-safety regulations to be deployed effectively and at least cost, it is essential to have accurate, high-resolution maps of fire-threats. Utilities are currently using interim fire-threat maps adopted in R.08-11-005 pending the development and adoption of permanent fire-threat maps.

As part of R.08-11-005, the California Department of Forestry and Fire Protection (CAL FIRE) is currently developing a statewide fire-threat map that will show in unprecedented geographic detail the risk of power-line fires occurring and spreading rapidly. The fire-threat map developed by CAL FIRE, with appropriate modifications recommended by the parties, will be used to draw the boundaries of a new High Fire-Threat District where stronger

² GO 165 prescribes inspection cycles for electric utility distribution facilities.

³ GO 166 requires, among other things, that every electric utility subject to the Commission's jurisdiction to annually prepare and submit a plan that sets forth the utility's anticipated responses to emergencies and major outages.

⁴ The fire-prevention plans apply, at a minimum, to those parts of an Electric IOU's service territory where there is a minimum probability of 3% over a 50-year period that all three of the following conditions will occur simultaneously: (i) 3-second wind gusts exceed the structural design standards for the affected overhead power-line facilities, (ii) these 3-second gusts occur during a Red Flag Warning issued by the National Weather Service, and (iii) the affected facilities are in a high fire-threat area.

fire-safety regulations adopted in R.08-11-005 will apply. And because CAL FIRE's mapping work may lead to a deeper understanding about the risks of power-line fires, parties will have an opportunity in R.08-11-005 to propose new fire-safety regulations for utility facilities in high fire-threat areas.

CAL FIRE's map-development work is being conducted by outside expert consultants selected and overseen by CAL FIRE. The cost of the consultants is being paid with \$500,000 provided by Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), and Southern California Edison Company (SCE) pursuant to Decision (D.) 14-01-010. The fire-threat map will be based on approximately 150 terabytes of fire-weather data, which will be used to run millions of fire simulations to build a high-resolution, statewide fire-threat map. Although work is progressing, the task of developing a state-of-the-science fire-threat map has proven to be a difficult challenge.

2. Order Instituting Rulemaking

In rulemaking proceedings that span long periods of time, it is the Commission's practice to periodically close the rulemaking proceeding and open a successor rulemaking proceeding with some or all of the outstanding matters transferred to the new proceeding.⁵ Consistent with Commission practice, we will close R.08-11-005 and open a successor rulemaking proceeding pursuant to Rule 6.1 of the Commission's Rules of Practice and Procedure (Rule).⁶

⁵ See, e.g., Orders Instituting Rulemaking (OIRs) 15-02-020, 11-05-005, 08-08-009, and 06-05-027 re: renewable portfolio standard; OIR 14-10-010 re: Resource Adequacy Program; OIRs 13-12-010, 12-03-014, and 10-05-006 re: electric utility long-term procurement plans; OIRs 12-11-005, 10-05-004, and 08-03-008 re: California Solar Initiative; and OIR 12-01-005 re: energy efficiency risk/reward incentive mechanism.

⁶ Rule 6.1 states, "The Commission may at any time institute rulemaking proceedings on its own motion: (a) to adopt, repeal, or amend rules, regulations, and guidelines for a class of

Footnote continued on next page

2.1. Preliminary Scoping Memo

In accordance with Rule 7.1(d), this order instituting rulemaking (OIR) contains a Preliminary Scoping Memo that addresses the scope, schedule, category, and the need for hearings, as well as other matters that are customarily the subject of scoping memos.

2.1.1. Scope of the Proceeding

The focus of this proceeding is fire safety. The general scope of this proceeding is to address the following matters carried over from R.08-11-005:

1. Develop and adopt Fire Map 1. As described in D.14-01-010, the purpose of Fire Map 1 is to depict the physical and environmental conditions associated with an elevated potential for utility-associated wildfires. (D.14-01-010 at 2 and 10.) CAL FIRE is currently developing Fire Map 1.
2. Develop and adopt Fire Map 2. The purpose of Fire Map 2 is to delineate the boundaries of a new High Fire-Threat District where stronger fire-safety regulations adopted in R.08-11-005 and this proceeding will apply. (D.14-01-010 at 2 and 10.)
3. Determine the need for new fire-safety regulations in light of Fire Map 2. These new regulations may include, for example, new standards for designing, building, and operating overhead utility facilities in the High Fire-Threat District. (D.12-01-032, Ordering Paragraph (OP) 8.iii.)

public utilities or other regulated entities; (b) to amend the Commission's Rules of Practice and Procedure; or (c) to modify prior Commission decisions which were adopted by rulemaking."

4. Assess whether any of the new fire-safety regulations adopted pursuant to Item 3 should apply to existing facilities in the High Fire-Threat District based on cost-benefit considerations and Rule 12 of GO 95 and, if so, develop a plan, timeline, and cost estimate for upgrading existing facilities to meet the new regulations.
(D.12-01-032, OP 8.iv.)
5. Consider proposals related to the “multiply by” provision in Rule 48 of GO 95, provided that such proposals are consistent with the primary purpose of this proceeding of enhancing the fire safety of overhead utility facilities.⁷
(D.14-02-015, OP 5.)
6. Revise GO 95 to include (a) a High Fire-Threat District, (b) maps of the High Fire-Threat District, and (c) fire-safety regulations developed pursuant to Items 3 - 5.
(D.12-01-032, OP 8.iii.)
7. Implementation issues associated with the previous Items, including cost recovery and the timeframe for implementing any new rules and requirements.

The scope of this rulemaking proceeding excludes (i) matters that are focused on reducing utilities’ legal liability; (ii) the procurement of electric generation resources of any type; (iii) replacing GO 95’s design methodology for structures and facilities; (iv) in-depth technical review of GO 95’s

⁷ D.14-02-015, as modified by D.14-12-089, states at page 69: “To the extent practical, Rule 48 and related rules should reflect location-specific fire hazards. For example, Rule 44 currently specifies a single statewide wind-load safety factor of 4.0 for new Grade A wood poles. We anticipate the fire-threat map(s)... will allow a more granular and cost-effective wind-load standard that better protects public safety... We expect that some areas of the State may need to retain the existing standard, some areas may need a higher standard, and in other areas a lower standard may be reasonable.” The Commission further held that proposals to modify the “multiply by” provision in Rule 48 should result in consistent application of safety factors throughout Rule 48, and that the criteria used to evaluate such proposals may include cost-risk-benefit considerations. (D.14-02-015, OP 5.)

Rules 49.3 - 49.7 (inclusive) and associated rules and appendices; and
(v) elimination of the “will not fail” provision in GO 95’s Rule 48.

Because this proceeding is a continuation of R.08-11-005, the record of R.08-11-005 is incorporated into the record of this proceeding by reference.

2.1.2. Category and Need for Hearing

Rule 7.1(d) provides that an OIR shall preliminarily determine the proceeding category and the need for hearing. The category for this proceeding is preliminarily determined to be ratesetting as that term is defined in Rule 1.3(e). This preliminary determination is not appealable, but shall be confirmed or changed by an assigned Commissioner’s ruling.

We anticipate that the issues in this proceeding may be resolved through a combination of written comments and workshops, but it is reasonably possible that evidentiary hearings may be needed regarding some issues. We therefore preliminarily determine that a hearing is needed.

Parties may object to these preliminary determinations (and all other determinations in this Preliminary Scoping Memo) in written comments filed pursuant to Rule 6.2. The schedule for filing such comments is set forth below. The assigned Commissioner will make a final determination regarding the category of this proceeding and the need for hearing in a scoping memo issued pursuant to Rule 7.3(a). The assigned Commissioner’s determination as to category is subject to appeal pursuant to Rule 7.6.

2.1.3. Preliminary Schedule

The preliminary schedule for this proceeding is contained in Appendix A of this OIR. The assigned Commissioner and/or the assigned Administrative Law Judge (ALJ) may revise the preliminary schedule, as appropriate.

A Prehearing Conference (PHC) and written PHC statements will be scheduled as soon as practical in accordance with the preliminary schedule in Appendix A. The written PHC statements will be the parties' opportunity to address the matters set forth in Rule 6.2, which states as follows:

Any person filing comments on an order instituting rulemaking shall state any objections to the preliminary scoping memo regarding the category, need for hearing, issues to be considered, or schedule. Any recommended changes to the proposed schedule shall be consistent with the proposed category, including a deadline for resolving the proceeding within 18 months or less (ratesetting or quasi-legislative proceeding). All comments which contain factual assertions shall be verified. Unverified factual assertions will be given only the weight of argument.

The assigned Commissioner and/or assigned ALJ may designate other matters to be addressed in the PHC statements.

Following the PHC, the assigned Commissioner will issue a scoping memo pursuant to Rule 7.3(a) that sets a schedule for all matters in this proceeding (e.g., the development and adoption of Fire Map 1, Fire Map 2, and fire-safety regulations).

Public Utilities Code Section (Pub. Util. Code §) 1701.5(a) provides that in a ratesetting proceeding, the Commission shall resolve the issues raised in the scoping memo within 18 months of the date the scoping memo is issued. However, § 1701.5(b) provides that the assigned Commissioner may specify in the scoping memo a resolution date of more than 18 months if the scoping memo includes specific reasons for the necessity of a later date.

In accordance with § 1701.5, this proceeding will conclude within 18 months from the date of the assigned Commissioner's scoping memo unless

the assigned Commissioner determines in the scoping memo pursuant to § 1701.5(b) that this proceeding requires more than 18 months to complete.

2.1.4. Proceeding Process and Procedures

This OIR retains the procedures established in R.08-11-005 for developing and adopting Fire Map 1, Fire Map 2, and fire-safety regulations. These procedures are summarized below, and may be revised by the assigned Commissioner and/or the assigned ALJ.

2.1.4.1 Fire Map 1

A team of expert consultants selected and led by CAL FIRE is currently developing Fire Map 1 with input from interested parties and \$500,000 of funding provided by PG&E, SCE, and SDG&E. The next steps are:

- The Commission's Safety and Enforcement Division (SED) shall facilitate regular meetings and information exchanges between (1) CAL FIRE's expert consultants and (2) stakeholder experts. Stakeholder experts may receive status reports and provide real time input on key Fire Map 1 elements so that CAL FIRE has access to the best available information and expertise.⁸
- SED shall serve: (1) CAL FIRE's draft Map Review and Development Report, and (2) notice of a public workshop. The report will include CAL FIRE's recommendations regarding:
 - The fire hazards that should be reflected in Fire Map 1.
 - The data and source information that should be used to depict the physical and environmental conditions in Fire Map 1.

⁸ Ongoing participation by stakeholder experts serves an important quality control function by increasing the likelihood that possible errors, omissions, and other shortcomings in the development of Fire Map 1 are discovered and corrected.

- The methodologies for depicting the data and source information in graphic form.
 - Whether, and to what extent, the existing Reax and SDG&E fire-threat maps might serve the purposes of Fire Map 1.
 - How Fire Map 1 will be delivered to the parties in a medium importable into geographic information systems.
 - The procedures for updating Fire Map 1 periodically.
 - Other relevant matters as determined by CAL FIRE.
- SED shall convene a public workshop where:
(1) CAL FIRE and its experts will explain their recommendations, and (2) stakeholders may present alternative recommendations. After the workshop, CAL FIRE will finalize its Map Review and Development Report, which SED will then serve on the parties.
 - The Fire Safety Technical Panel⁹ shall prepare and serve a draft Fire Map 1 Workshop Report that provides:
(1) recommendations to the Commission based on CAL FIRE's Map Review and Development Report, (2) any alternative recommendations, and (3) a detailed work plan for producing Fire Map 1. After receiving comments from the parties, the Fire Safety Technical Panel shall prepare, file, and serve a final Fire Map 1 Workshop Report.
 - The final Fire Map 1 Workshop Report shall state whether there is opposition to the report's recommendations. If there is no opposition, the recommendations shall be deemed approved, and the Fire Safety Technical Panel shall produce Fire Map 1 as quickly as practical and file Fire Map 1 via a Tier 1 Advice Letter. The Tier 1

⁹ The *Assigned Commissioner's Amended Scoping Memo and Ruling for Track 3 Issues and Deferred Track 1 Issues* that was issued in R.08-11-005 on May 15, 2013, (hereafter, the "the May 2013 Amended Scoping Memo") established the self-directed Track 3 Technical Panel, its membership, and its responsibilities. In the instant proceeding, the Track 3 Technical Panel shall be referred to as the "Fire Safety Technical Panel."

Advice Letter and final Fire Map 1 shall be effective when filed, pending disposition by the Commission's Energy Division.

- If there is opposition to the Fire Map 1 Workshop Report, parties may file comments and reply comments on the report. The comments shall follow a common outline provided by the Fire Safety Technical Panel. The report and comments shall together provide a comprehensive summary of each party's position on Fire Map 1 and alternative proposals, if any. There will also be:
 - An opportunity to file motions for evidentiary hearings.
 - Evidentiary hearings, briefs, and reply briefs, if needed.
 - A Commission decision regarding Fire Map 1, if needed.
 - A Tier 1 Advice Letter that contains the final version of Fire Map 1. This advice letter shall be filed by the Fire Safety Technical Panel or one of its members after: (1) a Commission decision necessitated by opposition to the Fire Map 1 Workshop Report, or (2) other instructions from the assigned Commissioner or the Commission. The Tier 1 Advice Letter and final Fire Map 1 shall be effective when filed, pending disposition by the Commission's Energy Division.

2.1.4.2 Fire Map 2

Following the submittal of the final Fire Map 1 Workshop Report, the Fire Safety Technical Panel shall convene to prepare a work plan for the design, development, adoption, and implementation of Fire Map 2 using the same process that was used to prepare the work plan for Fire Map 1 attached to

D.14-01-010.¹⁰ If there is no opposition to the Fire Map 1 Workshop Report, the Fire Safety Technical Panel shall convene as soon as practical after the submission of the report. On the other hand, if there is opposition to the report that necessitates a Commission decision, the Fire Safety Technical Panel shall convene as soon as practical after the Commission decision authorizing the production of Fire Map 1.

2.1.4.3 New Fire-Safety Regulations

Concurrent with the development of Fire Map 1 and Fire Map 2, the Fire Safety Technical Panel shall convene at least quarterly to:

- Consider the need for new fire-safety regulations based on Fire Maps 1 and 2.
- If appropriate, develop a menu of potential fire-safety regulations for the design, construction, operation, and/or maintenance of overhead electric utility facilities and aerial communications infrastructure facilities in the new High Fire-Threat District.
- Develop criteria regarding: (i) where the fire-safety regulations developed pursuant to the previous bullet should apply with respect to new installations and reconstruction in the High Fire-Threat District; and (ii) whether existing facilities in the High Fire-Threat District should be retrofitted or replaced to conform to the new regulations developed pursuant to the previous bullet. These criteria should include methods for: (a) estimating the costs and safety benefits of proposed fire-safety regulations, and (b) weighing the costs and safety benefits.
- Consider and, if appropriate, develop proposed revisions to the “multiply by” provision in GO 95’s Rule 48 in

¹⁰ The Fire Map 2 Work Plan should address matters in the May 2013 Amended Scoping Memo at 10-12, to the extent these matters pertain to Fire Map 2.

accordance with the guidance provided by Ordering Paragraph 5 of D.14-02-015.

These meetings shall be conducted in a manner consistent with: (1) the instructions at pages 7-8 of the May 2013 Amended Scoping Memo issued in R.08-11-005, and (2) the workshop protocols in Appendix C of the Fire Safety Technical Report that was filed in R.08-11-005 on September 23, 2013.

2.1.4.4 Role of the Safety and Enforcement Division

Because the focus of this proceeding is fire safety, we expect SED to participate actively in the proceeding. The assigned Commissioner and/or the assigned ALJ may direct and revise SED's participation. To the extent that SED's participation includes both an advisory function and an advocacy function, SED shall assign separate personnel to each function, consistent with the Commission's *Safety Action Plan and Regulatory Strategy*.¹¹

SED shall also provide administrative and institutional support to CAL FIRE in accordance with the Fire Map 1 Work Plan approved by D.14-01-010.¹²

2.2. Funding for CAL FIRE

CAL FIRE and its team of expert consultants are currently developing Fire Map 1 with \$500,000 of funding provided by PG&E, SCE, and SDG&E pursuant to D.14-01-010. Once adopted, Fire Map 1 will serve as the foundation for the development of Fire Map 2, which will delineate the boundaries of a new

¹¹ *Safety Action Plan and Regulatory Strategy* at 10. The *Safety Action Plan and Regulatory Strategy* was adopted by the Commission at its business meeting on February 12, 2015. It is available at: <http://www.cpuc.ca.gov/NR/rdonlyres/75A92694-21AE-48A4-A11D-23697B928141/0/SafetyActionPlanRegulatoryStrategyFeb12FINAL.pdf>.

¹² D.14-01-010 at 11, 12, and Appendix A at 7.

High Fire-Threat District where stronger fire-safety regulations adopted in R.08-11-005 and this proceeding will apply. We anticipate that the knowledge and experience gained by CAL FIRE and its expert consultants during the development of Fire Map 1 may be useful in the development of Fire Map 2 and in advising the Commission regarding any disputes that may arise pertaining to the development, adoption, or implementation of Fire Maps 1 and 2.

To ensure that adequate funding is available to obtain assistance from CAL FIRE and its expert consultants, if needed, this OIR directs PG&E, SCE, and SDG&E (together, “the Electric IOUs”) to provide up to \$500,000 (in addition to the \$500,000 provided pursuant to D.14-01-010) for this purpose.¹³ To request funding, CAL FIRE and/or SED may file one or motions. Each motion shall request a specific amount of funding up to \$500,000, explain why the funding is needed, describe the work that will be performed with the funding, and recommend an administrative framework for overseeing the work and disbursing the funds. The assigned Commissioner or the assigned ALJ may rule on the motion(s).

Any funding approved by the assigned Commissioner or the assigned ALJ will be subject to the following conditions:

1. Total payments by the Electric IOUs through the adoption and implementation of Fire Map 2 shall not exceed \$500,000 (in addition to the \$500,000 authorized by D.14-01-010).

¹³ The Commission may order public utilities to provide funding for utility-related purposes. *See, e.g.,* D.14-07-006 at Section 4.4.1; D.14-05-002 at OP 3; D.12-12-033 at OP 12; D.12-12-030 at OP 9; D.11-04-030 at OP 8; D.11-01-016 at 1; D.10-06-018 at OP 3; D.09-05-028 at Finding of Fact 1 and OP 1; D.07-12-051 at OP 14; D.07-12-050 at OP 4; D.07-10-032 at OP 44; D.07-09-042 at OPs 8 and 9; and D.05-04-051 at OP 4.

2. Payments by the Electric IOUs shall have no precedential value for others aspect of this proceeding or future proceedings.
3. The Electric IOUs may record their payments in their Fire Hazard Prevention Memorandum Accounts that are described in D.12-01-032 at 153-156. The Electric IOUs shall use the procedures in D.12-01-032, Ordering Paragraph 14, to request recovery of their payments.
4. There shall be a rebuttable presumption that payments by the Electric IOUs up to a total of \$500,000 (in addition to the \$500,000 authorized by D.14-01-010) are reasonable and may be recovered in rates.

If requested by CAL FIRE or SED, the Electric IOUs shall prepare and execute contracts appropriate to CAL FIRE's requirements and the IOUs' contracting practices. CAL FIRE's contractors shall record billable costs (time, materials, and expenses), which shall be reviewed by CAL FIRE and/or SED. After approval by CAL FIRE and/or SED, the contractors may directly bill each Electric IOU for the IOU's share of the approved costs using the following allocation: PG&E (44.3%), SCE (43.4%), and SDG&E (12.3%). This allocation is based on 2014 electric operating revenues reported in each IOU's Form 10K.

3. Official Service List

The Commission's Process Office will publish the official service list for this proceeding on the Commission's website at (www.cpuc.ca.gov) and update the list as necessary. Placement on the official service list is governed by Rules 1.4 and 1.9(f). Any person or entity that files comments in this rulemaking proceeding pursuant to Rule 6.2 will automatically be added the official service list as a party pursuant to Rule 1.4(a)(2)(ii). The due date for filing comments pursuant to Rule 6.2 will be set by the assigned Commissioner or the assigned

ALJ. Other persons and entities may request party status by motion pursuant to Rule 1.4(a)(3) or Rule 1.4(a)(4).¹⁴

The Commission's practice is to list only one representative per party in the "Parties" category of the official service list. Other representatives for the same party may be placed on the service list in the "State Service" category or the "Information Only" category using the procedures identified below.

Anyone can receive electronic service of documents in this proceeding by asking to be placed on the official service list in the "Information Only" category. Such requests should be sent to the Commission's Process Office by e-mail (ProcessOffice@cpuc.ca.gov) or by letter (Process Office, California Public Utilities Commission, 505 Van Ness Avenue, San Francisco, CA 94102). The request should include the following information:

- Docket Number for this rulemaking proceeding.
- Name of the person (and the entity represented, if applicable).
- E-mail address (if available).¹⁵
- Postal address.
- Desired category (Information Only or State Service).

Employees of the State of California who wish to receive service of documents may be added to the service list in the "State Service" category using the procedures described previously for the "Information Only" category.

¹⁴ To ensure service of all documents prior to obtaining party status, persons should promptly request addition to the "Information Only" category or "State Service" category on the official service list. Such persons will be removed from that category upon obtaining party status.

¹⁵ Non-parties, other than those eligible for addition to the service list as "State Service," must provide an e-mail address in order to receive service of documents that are not required to be served by hard copy. (Rule 1.10(b).)

To ensure receipt of all documents, requests to be added to the official service list should be sent to the Process Office as soon as practical.

It is the responsibility of each person or entity on the official service list to ensure that their information on the service list (e.g., the name and e-mail address of a party's representative) is correct and up to date. This information can be corrected and updated by sending an e-mail or letter to the Process Office.

4. Subscription Service

Persons can monitor this proceeding by subscribing to receive electronic copies of documents in this proceeding that are published on the Commission's website. There is no need to be on the official service list in order to use the subscription service. Instructions for using the subscription service are available on the Commission's website at <http://subscribecpuc.cpuc.ca.gov>.

5. Temporary Use of the Service List for R.08-11-005

To provide an orderly transition from the predecessor proceeding, R.08-11-005, all documents that are served in the rulemaking proceeding instituted by this OIR shall be served on the official service list for R.08-11-005. This requirement shall end 60 days from the date this OIR is issued.¹⁶

6. Filing and Serving Documents

All documents that are filed and/or served must comply with Article 1 of the Commission's Rules. (See particularly Rules 1.5-1.10 and 1.13.) The Commission encourages electronic filing and e-mail service. Information about electronic filing is available at <http://www.cpuc.ca.gov/PUC/efiling>. E-mail service is governed by Rule 1.10. Anyone who serves documents by e-mail must also provide a paper copy to the assigned ALJ pursuant to Rule 1.10(e).

¹⁶ The issuance date is shown on the first page of this OIR.

The assigned Commissioner and the assigned ALJ may establish additional requirements for filing and/or serving documents in this proceeding.

7. Public Advisor

Anyone interested in participating in this proceeding who is unfamiliar with the Commission’s procedures may obtain assistance by calling or e-mailing the Commission’s Public Advisor as follows:

Contact Information for the Public Advisor	
Toll Free Number	(866) 849-8390
Regular Number	(415) 703-2074
TTY-Toll Free Number	(866) 836-7825
E-mail Address	public.advisor@cpuc.ca.gov

8. Intervenor Compensation

In accordance with Pub. Util. Code § 1804(a)(1) and Rule 17.1(a), notices of intent to claim intervenor compensation in this proceeding must be filed no later than 30 days after the date of the PHC. The PHC will be scheduled by the assigned Commissioner or the assigned ALJ.

9. Ex Parte Communications

Ex parte communications in this proceeding are governed by Article 8 of the Commission’s Rules of Practice and Procedure. In addition, PG&E is subject to the *ex parte* restrictions in D.14-11-041.

10. Service of this OIR

Rule 6.1 requires this OIR to be served on all respondents and known interested persons. Because this rulemaking proceeding is a continuation of R.08-11-005 for which there were no respondents, we conclude there is no need to designate respondents in this rulemaking proceeding.

To comply with the Rule 6.1 requirement to serve this OIR on known interested person, the Executive Director shall serve this OIR on (1) the official service list for R.08-11-005, and (2) entities that may have overhead utility facilities. These entities consist of investor-owned electric utilities (listed in Appendix B of this OIR), publicly owned electric utilities (Appendix C), rural electric cooperatives (Appendix D), and facilities-based telecommunications carriers (Appendix E). Service of this OIR does not confer party status or place a person who has received such service on the official service list for this proceeding. Instructions for obtaining party status and being placed on the official service list are provided in Section 3 of this OIR.

11. Closure of R.08-11-005 for the Purpose of § 1701.5

This OIR closes the docket for R.08-11-005 for the purpose of Pub. Util. Code § 1701.5. However, R.08-11-005 remains open to the extent necessary to process pending requests for intervenor compensation.

O R D E R

IT IS ORDERED that:

1. Pursuant to Rule 6.1 of the Commission's Rules of Practice and Procedure, this rulemaking proceeding is instituted to: (i) develop and adopt statewide maps that depict areas where there is an elevated risk of power-line fires igniting and spreading rapidly, and (ii) consider and adopt regulations to mitigate the risk of power-line fires in such areas. The Preliminary Scoping Memo in the body of this order identifies the specific matters that are included in, or excluded from, the scope of this proceeding. The assigned Commissioner may refine the scope of this proceeding, as appropriate.

2. The preliminary schedule for this rulemaking proceeding is set forth in Appendix A of this order. The assigned Commissioner and/or the assigned Administrative Law Judge may modify the proceeding schedule for the reasonable, efficient, and orderly conduct of this proceeding.

3. The assigned Commissioner or the assigned Administrative Law Judge shall set a prehearing conference (PHC) as set forth in the preliminary schedule in Appendix A of this order or at such other time as they deem appropriate. Parties shall have an opportunity to file written PHC statements that address the matters in Rule 6.2 of the Commission's Rules of Practice and Procedure.

4. The preliminary category for this rulemaking proceeding is ratesetting.

5. There is a preliminary need for evidentiary hearings.

6. The record of Rulemaking 08-11-005 is incorporated by reference into the record of the rulemaking proceeding instituted by this order.

7. The proceeding instituted by this order shall continue to use the procedures established in Rulemaking 08-11-005 for addressing matters that are within the scope of this proceeding. These procedures, which are summarized in the body of this order, may be revised by the assigned Commissioner and/or the assigned Administrative Law Judge as they deem appropriate.

8. The Commission's Safety and Enforcement Division (SED) shall (i) participate actively in this proceeding, and (ii) provide administrative and institutional support to the California Department of Forestry and Fire Protection in accordance with the Fire Map 1 Work Plan approved by Decision 14-01-010. The assigned Commissioner and/or the assigned Administrative Law Judge may direct and revise SED's participation in this proceeding.

9. The following electric utilities shall together provide up to \$500,000 to pay for assistance from the California Department of Forestry and Fire Protection

(CAL FIRE) and its expert consultants, if needed, for the development, review, adoption, and implementation of Fire Map 1 and Fire Map 2: Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), and Southern California Edison Company (SCE) (together, the “Electric IOUs”). To request funding, CAL FIRE and/or the Commission’s Safety and Enforcement Division (SED) shall file one or more motions. Each motion shall request a specific amount of funding up to \$500,000, explain why the funding is needed, describe the work that will be performed with the funding, and propose an administrative framework to oversee the work and disburse the funds. The assigned Commissioner or the assigned Administrative Law Judge (ALJ) may rule on such motions. Any funding approved by the assigned Commissioner and/or the assigned ALJ shall be subject to the following conditions:

- i. Total payments by the Electric IOUs through the adoption and implementation of Fire Map 2 shall not exceed \$500,000 (in addition to the \$500,000 authorized by Decision (D.) 14-01-010);
- ii. Payments by the Electric IOUs shall have no precedential value for any other aspect of this proceeding or future proceedings;
- iii. The Electric IOUs may record their payments in their Fire Hazard Prevention Memorandum Accounts that are described in D.12-01-032 at 153-156. The Electric IOUs shall use the procedures in D.12-01--032, Ordering Paragraph 14, to request recovery of their payments;
- iv. There shall be a rebuttable presumption that payments by the Electric IOUs up to a total of \$500,000 (in addition to the \$500,000 authorized by D.14-01-010) are reasonable and may be recovered in rates; and

- v. If requested by CAL FIRE or SED, the Electric IOUs shall prepare and execute contracts appropriate to CAL FIRE's requirements and the IOUs' contracting practices. The contractors shall record billable costs (time, materials, and expenses), which shall be reviewed by CAL FIRE and/or SED. After approval from CAL FIRE and/or SED, the contractors may directly bill each Electric IOU for its share of the approved costs using the following allocation: PG&E (44.3%), SCE (43.4%), and SDG&E (12.3%).

10. Placement on the official service list for this proceeding is governed by Rules 1.4 and 1.9 of the Commission's Rules of Practice and Procedure.

11. The assigned Commissioner and/or the assigned Administrative Law Judge shall have on-going oversight of the service list and may revise the service list or the rules governing it, as needed.

12. All documents that are served in the rulemaking proceeding instituted by this order shall be served on the official service list for Rulemaking 08-11-005. This requirement shall end 60 days after the date this order is issued.

13. Pursuant to Public Utilities Code Section 1804(a)(1) and Rule 17.1(a) of the Commission's Rules of Practice and Procedure (Rule), the deadline in this rulemaking proceeding to file notices of intent to claim intervenor compensation is 30 days after the date of the Prehearing Conference that will be scheduled by the assigned Commissioner or the assigned Administrative Law Judge.

14. *Ex Parte* communications in this proceeding are governed by Article 8 of the Commission's Rules of Practice and Procedure. In addition, Pacific Gas and Electric Company is subject to the *ex parte* restrictions in Decision 14-11-041.

15. The Executive Director shall serve a copy of this order on (i) the official service list for Rulemaking 08-11-005, and (ii) the entities listed in Appendices B - E of this order.

16. Rulemaking (R.) 08-11-005 is closed for the purpose of Public Utilities Code Section 1701.5, but R.08-11-005 remains open to process pending requests for intervenor compensation. All other outstanding matters in R.08-11-005 are transferred to the rulemaking proceeding instituted by this order.

This order is effective today.

Appendix A

Preliminary Schedule for the Proceeding

**This schedule may be revised by the
assigned Commissioner and/or the assigned Administrative Law Judge.**

Appendix A Preliminary Schedule		
Event		Date or Time Frame
1	SED facilitates regular meetings and information exchanges between (i) CAL FIRE and its expert consultants, and (ii) stakeholder experts. Stakeholder experts may receive status reports from CAL FIRE and provide real time input on key Fire Map 1 elements so that CAL FIRE and its expert consultants have access to the best available information and expertise.	Through at Least Item 2, Below
2	Draft Fire Map 1 Review & Development Report Served on Parties with Notice of Public Workshop	8/4/15
3	Comments and Alternate Proposals on the Draft Map Review and Development Report Served	8/25/15
4	Two-Day Public Workshop on the Draft Report <ul style="list-style-type: none"> • SED places notice of workshop in the Daily Calendar 	9/8 - 9/9/15
5	Final Fire Map 1 Review & Development Report Served. If no Opposition, Skip to Row 13.	9/18/15
6	Workshop Report Filed & Served	9/29/15
7	Opening Comments on the Workshop Report Filed & Served	10/20/15
8	Reply Comments on the Workshop Report Filed & Served	10/30/15
9	Motions for Evidentiary Hearings, if any	11/6/15
10	Replies to Motion for Evidentiary Hearings, if any	11/16/15
11	Prehearing Conference (PHC) Statements and PHC. The written PHC statements shall be the parties' opportunity to address the matters in Rule 6.2 of the Commission's Rules of Practice and Procedure.	TBD Note: A PHC Shall Be Held
12	Final Decision on Fire Map 1 Issued (if no hearings)	February 2016

Appendix A Preliminary Schedule		
Event		Date or Time Frame
13	<p>Fire Map 1 Produced in Accordance with the Workshop Report (if no opposition) or the Final Decision (if opposition).</p> <ul style="list-style-type: none"> • Production of Draft Fire Map 1. • Public All-Party Workshops (noticed in the Daily Calendar by SED) and Quality Control Vetting. • Fire Safety Technical Panel Finalizes Fire Map 1 and Submits to the Commission via a Tier 1 Advice Letter. 	<p>April 2016 (If no hearings.)</p>
14	Develop and Adopt Fire Map 2 (See Section 2.1.1, Item 2, of this Order Instituting Rulemaking (OIR))	TBD
15	Develop and Adopt Fire Safety Regulations (See Section 2.1.1, Items 3-7, of this OIR)	TBD

(End of Appendix A)
